

# **E-470 Road Widening Project Update**

October 2019

## ***Paving work begins (Jewell to Quincy Avenue)***

Crews are placing the first section of asphalt paving on southbound E-470 near Hampden Avenue. Paving operations will take place behind the concrete barrier and be ongoing through October. Impacts to the traveling public will be minimal, but watch for trucks entering and exiting along ramps. Daytime single-lane closures will be scheduled as needed to support the work Monday through Friday, 9 a.m. to 3 p.m. The third lane on this section of E-470 from Jewell to Quincy Avenue is planned to be open to traffic by the end of 2019.

## ***Colfax Lane Restrictions***

Motorists should expect daytime single lane closures on Colfax Avenue near E-470 September 27-30 from 7 a.m. to 5 p.m. Lane restrictions will continue through the weekend including one-way traffic on Saturday for detour asphalt paving. The lane restriction is necessary for constructing detour pavement. Once constructed, the detour pavement will minimize traffic impacts during construction of the E-470 bridge widening over Colfax.

## ***Coal Creek Bridge Girder Installation***

Girders for the Coal Creek Bridge are scheduled to be set on Monday evening, October 7. Southbound E-470 traffic from I-70 to approximately one-quarter mile past the Coal Creek Bridge will be reduced to one lane starting at 7 p.m. to 6 a.m. Traffic control will be on site to assist the traveling public.

## ***Coal Creek bridge work begins on Northbound E-470***

Work is now underway on the E-470 northbound bridge at Coal Creek. Crews are working on the deep foundations with pile driving and caisson installation. Daytime single lane closures can be expected in the upcoming weeks Mondays through Fridays, 9 a.m. to 3 p.m. to accommodate the work.

## ***Upcoming Quincy On-Ramp Traffic Switch***

Construction of the Quincy on-ramp to southbound E-470 will begin in mid-October. More information will be communicated as construction details are finalized. This work will involve temporary and permanent asphalt paving and a traffic switch onto temporary detour slip ramp.

## ***Upcoming Plaza B Construction***

Multiple construction activities on southbound E-470 at Toll Plaza B (between Hampden and Jewell) are scheduled to take place over the weekend of October 19 and 20. Southbound traffic will be reduced to a single lane near Toll Plaza B starting at 7 p.m. on Friday, October 18 through Monday morning, October 21 at 6 a.m. This closure is necessary to accommodate new paving and tolling equipment installation. Activities are weather and schedule dependent.
