

MOVE OVER

IT'S THE LAW

Help keep E-470 and surrounding Colorado highways safe!

What is the law?

The *Move Over Law* requires driver response to emergency vehicles approaching as well as first responders or maintenance workers who may be stopped on the road. One of the dangers they face is being struck by a car while working alongside traffic. It is important as drivers that we *move over* to give them the space they need to work safely.

Who to look out for on the road:

Law Enforcement

Maintenance Workers in the Cone Zone

Firefighters & EMTs

Roadside Assistance

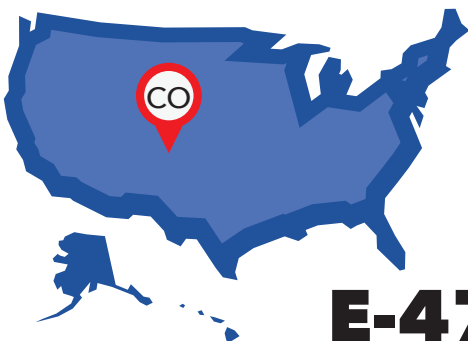

Tow Trucks

Snow Plows

The Move Over Law is enacted in all 50 States

Colorado officially implemented the *Move Over Law* on July 1, 2005.

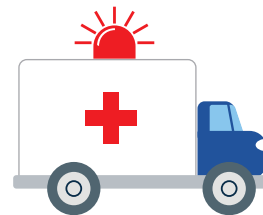

E-470.COM

How does the law work?

Vehicle is stopped

When a vehicle is stopped on the road, slow down and move one lane away if able. Otherwise, pass responsibly.

Vehicle is approaching

When an emergency responder vehicle is approaching with flashing lights and/or siren, pull over to the right until the vehicle has passed.
